

# VEHICLE UPGRADES

Pickup canopies, tonneau covers and UTE tray solutions

A practical catalogue for work, fleet, lifestyle and overland vehicle applications.

In partnership with  
FabNest Technologies Ltd.

For fitment enquiries: provide vehicle model,  
year, cab type and preferred design.

## Solutions Auto Hire Services

### Vehicle upgrades catalogue

This catalogue presents selected pickup vehicle upgrade categories for clients seeking practical cargo protection, utility, security and appearance improvements.

The range covers canopy designs, tonneau covers and UTE tray configurations suited for personal vehicles, business fleets, site operations, service vehicles and outdoor travel builds.

### Catalogue Use Cases

- Client presentations and product enquiries
- WhatsApp or email catalogue sharing
- Garage, fleet and business discussions
- Internal fitment review and quote preparation
- Product image replacement, as options are finalized.

**Presented by Solutions Auto Hire Services in partnership with FabNest Technologies Ltd.**

All products are subject to vehicle model, bed size, design availability and fitment confirmation.

Final specifications, availability, pricing and delivery arrangements are confirmed only after fitment review.

All products are subject to vehicle model, bed size, design availability and fitment confirmation.

DESIGN CATEGORY 01

## STANDARD LEISURE CANOPY

### MODEL: SAHS-VU-01

**Best for: Personal pickups, daily use and light business use**

#### Typical features

- Rear lift-up access door
- Improved cargo weather protection
- Roof rack
- Rear window
- Clean everyday appearance
- Suitable for selected pickup models

#### Specification placeholders

- Material: Manganese Steel or Aluminium Alloy
- Finish/colour: Black
- Accessories: optional depending on product design
- Fitment: subject to vehicle model, year and cab/bed size

All products are subject to vehicle model, bed size, design availability and fitment confirmation.

DESIGN CATEGORY 02

## COMMERCIAL UTILITY CANOPY

### MODEL: SAHS-VU-02

**Best for: Deliveries, small businesses, fleet cargo and field operations**

#### Typical features

- Enclosed cargo protection
- Lockable rear access depending on design
- Side protective mesh
- Roof rack
- Practical work-focused finish
- Suitable for tools, stock and business equipment
- Optional side access depending on configuration and preference

#### Specification placeholders

- Material: Manganese Steel or Aluminium Alloy
- Finish/colour: Black
- Accessories: optional depending on product design
- Fitment: subject to vehicle model, year and cab/bed size

All products are subject to vehicle model, bed size, design availability and fitment confirmation.

DESIGN CATEGORY 03

## EXECUTIVE FLUSH-FIT CANOPY

### MODEL: SAHS-VU-03

**Best for: Premium pickup owners and corporate vehicle users**

#### Typical features

- Smooth exterior profile
- Clean body-line integration
- Tinted window look depending on design and add-ons
- Premium personal or corporate appearance
- Best suited for lifestyle and executive pickups

#### Specification placeholders

- Material: Manganese Steel or Aluminium Alloy
- Finish/colour: Black or White
- Accessories: optional depending on product design
- Fitment: subject to vehicle model, year and cab/bed size

All products are subject to vehicle model, bed size, design availability and fitment confirmation.

DESIGN CATEGORY 04

## SIDE-LIFT / GULLWING CANOPY

### MODEL: SAHS-VU-04

**Best for: Technicians, tool users and clients who need frequent side access**

#### Typical features

- Side-lift access panels
- Improved access to tools and cargo
- Lockable side compartments depending on design
- Useful for service and field operations
- Practical for frequent loading and unloading

#### Specification placeholders

- Material: Manganese Steel or Aluminium Alloy
- Finish/colour: to be confirmed
- Accessories: optional depending on product design
- Fitment: subject to vehicle model, year and cab/bed size

All products are subject to vehicle model, bed size, design availability and fitment confirmation.

DESIGN CATEGORY 05

## CONTRACTOR / SERVICE CANOPY

### MODEL: SAHS-VU-05

**Best for: Mechanics, electricians, plumbers, site teams and technical support vehicles**

#### Typical features

- Utility-focused storage layout
- Side access options
- Lockable compartments depending on build
- Possible roof rack compatibility
- Designed for professional field use

#### Specification placeholders

- Material: Manganese Steel or Aluminium Alloy
- Finish/colour: to be confirmed
- Accessories: optional depending on product design
- Fitment: subject to vehicle model, year and cab/bed size

All products are subject to vehicle model, bed size, design availability and fitment confirmation.

DESIGN CATEGORY 06

## CAMPING / OVERLAND CANOPY

### MODEL: SAHS-VU-06

**Best for:** Outdoor travel, camping builds, adventure users and touring pickups

#### Typical features

- Enclosed cargo protection for travel gear
- Roof rack compatibility depending on design
- Ventilation/window options depending on configuration
- Suitable for camping and overland layouts
- Can be reviewed with additional outdoor accessories

#### Specification placeholders

- Material: Aluminium shell/ frame
- Finish/colour: to be confirmed
- Accessories: optional depending on product design
- Fitment: subject to vehicle model, year and cab/bed size

All products are subject to vehicle model, bed size, design availability and fitment confirmation.

DESIGN CATEGORY 07

## TONNEAU COVERS

### MODEL: SAHS-VU-07

**Best for:** Pickup owners needing secure, lower-profile load-bed protection

#### Typical features

- Hard lid, tri-fold or flat-cover style options
- Improves load-bed weather protection
- Lower profile compared to full canopy designs
- Manual or assisted opening depending on product option
- Suitable for selected pickup models after fitment review

#### Specification placeholders

- Hard lid Material: Manganese Steel or Aluminium Alloy
- Soft lid: Hardened Plastic (rollable/ fold)
- Finish/colour: to be confirmed
- Accessories: optional depending on product design
- Fitment: subject to vehicle model, year and cab/bed size

All products are subject to vehicle model, bed size, design availability and fitment confirmation.

DESIGN CATEGORY 08

## UTE TRAY & TRAY CANOPY

### MODEL: SAHS-VU-08

**Best for: Utility pickups, site vehicles, service fleets and heavy-duty cargo applications**

#### Typical features

- Tray-style cargo setup for work use
- Utility box or tray canopy configurations
- Good for tools, equipment and site operations
- Can support practical access and storage layouts
- Requires careful model and chassis/bed review

#### Specification placeholders

- Material: Aluminium alloy plate and frames
- Finish/colour: black
- Accessories: optional depending on product design
- Fitment: subject to vehicle model, year and cab/bed size

All products are subject to vehicle model, bed size, design availability and fitment confirmation.

**Large side window glass**

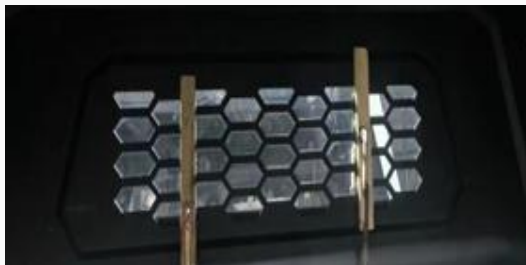

**Slide window – small glass**
